DIARY NOTES

25X1A

DD/S

10 December 1962

1. Shef Edwards and Bob Bannerman were in to discuss with me briefly the DCI's security aides. As I recorded earlier, since [REDACTED] is now the point of contact for this staff, 24-hour duty has been discontinued. Walt has also indicated to Shef and Bob that when vacancies occur he would like to consider filling these vacancies with "OCI types". While Shef was not too happy about this, I told him that we had briefed the Director thoroughly on the necessity for "protection", and the Inspector General has also looked into this matter. (There is no question about the Director understanding it; if he doesn't want protection, we shouldn't try to shove it down his throat. I can see that the Director may well want to change the emphasis from one of protection to a more sophisticated type; and, if so, we should offer no objection.) 25X1A9a

25X1A9a

2. [REDACTED] and I talked to [REDACTED] about General Carter's Christmas speech to supervisors, and I believe we have persuaded Ernie that he should write the speech. (On Tuesday, 11 December, Ernie advised me that General Carter had some reservation about doing this and wanted to withhold his decision for the moment.) 25X1A9a

25X1C4a

3. [REDACTED] telephoned about a special problem involving the 25X1A9a

[REDACTED]  
to exceed a total of \$2,500. (I asked Gene to work out the details and to prepare a paper for my signature.)

25X1A5a1

[REDACTED]  
had prepared a letter for me, and I arranged to have it picked up at 1600 hours.

5. [REDACTED] telephoned about promotion to grade GS-17 of Dr. [REDACTED] Chief of the Life Sciences Division in the Office of Scientific Intelligence. (DD/I and Dr. Tietjen both want this promotion to keep [REDACTED] on a level with his contemporaries in the Medical Staff and in the Medical Career Service. 25X1A9a

Neither DD/I nor the Medical Staff, however, has an appropriate vacancy. I told them that I would recommend that [REDACTED] position be upgraded to grade GS-17 on the temporary basis only and that this not be charged against anyone's ceiling. We should have adequate flexibility to take care of this for several years.)
